Multiplayer

The full monty!

Services

Research

User research
User persona development
Surveys
User journey mapping
Participant recruitment
Participant management

Usability & interface testing
A/B testing
Heuristic evaluation
Eye-tracking & heatmaps
JTBD (jobs-to-be-done)

Information & content research
Information architecture
Wireframing & prototyping
Copy research
Voice & tone analysis

Service design research
Service blueprinting
Cross-platform research
Contextual inquiry
Co-creation workshops

Competitor & market analysis
Competitor interface
Market & industry trends
Customer segments

Happiness x design research
Emotion mapping
In-depth interviews
Storytelling & narrative analysis

Digital design

Services
Ideation workshops
Product envisioning
Design augmentation
UX/UI design
Prototyping
Visual design
Design systems
Design ops
Illustration
Copywriting

3D
Modelling
Animation
Scene creation

Story & motion
Animated storytelling
Character rigging
Creative direction
Script writing
Motion design
Motion branding
Production
Co-directing
Voice talent direction
Editing

Audio
Sound design
Audio production

VR/MR/AR
VR/MR/AR content production

Tooling
Motion:
AfterEffects, Premiere, Cinema 4D, Redshift

Design:
Figma, Protopie, Miro, Adobe Creative Suite

Design systems:
Specify, Storybook, Supernova, Tokens Studio, Zero Height

Industrial design

Capabilities
Technology hardware design
Consumer product design
Consumer packaged goods
Medical product design
Appliance design
Packaging design
Retail displays
Environment design

Concept exploration
Territory exploration
Collaborative brainstorming
Model making
Brand alignment
Concept visualization

Concept validation
Appearance models
Breadboard models
Validation research
Physical UX
Hi-Fidelity rendering

Design for manufacturing
Refined 3D modeling
CMF specification
Engineering collaboration
Ergonomic testing
Hi-Fidelity rendering

Manufacturing support
Part evaluation
Limit sample evaluation

Retail presence
Retail display design
Packaging design
Marketing visualization

Technology

Services
Product technology strategy
Technology consultancy
Software/Solution architecture
Team augmentation
Technology transformation

Mobile
Cross-platform:
Flutter, React Native

iOS:
Swift, Objective C

Android:
Kotlin, Java

Modern web
Client side:
Angular, React, Tailwind, Vue, WordPress Themes, Unity

Server side:
PHP, Node, Ruby on Rails, Python, .NET

Content management
Contentful, WordPress

E-commerce
WooCommerce, Shopify, Magento

Databases
Relational, non-relational (document), warehouses

SaaS/PaaS/Clouds
Elastic, Firebase, Google Cloud Platform, Amazon Web Services

Machine learning
Python, Tensorflow

VR/MR/AR
VR/MR/AR development

Operations & QA
Manual testing
QA automation
Continuous integration
Dev workflows
DevOps

Labs

Fabrication
Hardware prototyping
Hardware engineering & consultancy

Digital fabrication
Additive manufacturing
Subtractive manufacturing

CAD/CAM modeling
Manufacturing consultancy

Electronics & IoT testing
PCB prototyping
Electronics & IoT testing
Embedded programming
IoT design

"The full monty" is a British slang phrase of uncertain origin. It means "everything which is necessary, appropriate or possible; 'the works'".
